

# Development & Construction of an Autonomous Path-Following Drone

Eduard Scherer

September 25, 2024

## **1 Introduction**

do at the end of the writing process

## **2 Personal Motivation**

rather short

## **3 Literature Review**

(work around the same topic that already exists)

## **4 Methodology**

(only what has been done + which parts are needed and why I choose them)

## **5 Results**

## **6 Discussion and Outlook**

## **7 Conclusion**

## **8 References**

## **9 Table of Figures**

(short table on which every figure description with the page number is listed)
